INTRODUCTION

The 1991-92 Estimates set out details of the operating and capital spending requirements of ministries for the year commencing April 1st, 1991 and constitute the Government's formal request to the Legislature for approval of the expenditures involved. Once approved by the Legislature in the Supply Act, the Estimates become the legal spending authority for each ministry.

The services or Programs which ministries are responsible for delivering are each identified by a unique vote number within the Estimates. Votes in turn are sub-divided into items or activities in order to distinguish between their different functions. This program/activity structure permits the Legislature to be more specific in appropriating funds to particular services. Within each activity, expenditures are shown by standard account, i.e. salaries and wages, employee benefits, transportation and communication, services, transfer payments etc. (see explanatory notes on page vii).

For comparative purposes, Estimates and Actual amounts for prior years are provided on program summary and activity summary pages. These amounts are restated to provide comparability where functional reorganizations and transfers, Supplementary Estimates or accounting changes have occurred. The Estimates also contain summary tables which outline data on expenditures as well as staffing.

A reconciliation statement is shown on each Ministry's program summary page to relate previously published Estimates and Public Accounts actuals to any restated amounts.

Where it is necessary to seek the Legislature's approval for additional expenditures after the tabling of the Main Estimates, Supplementary Estimates may be tabled.

EXPLANATORY NOTES

NOTE: Expenditure is forecast for the fiscal year 1991-92 under eight Standard Accounts at the activity level. The descriptions of the contents of the Standard Accounts given below are intended to serve as brief outlines only and should not be considered all inclusive.

Salaries and Wages

Includes salaries and wages, overtime and other remuneration paid to regular, probationary, unclassified and other staff; temporary help costs; indemnities and allowances paid to Members of the Legislative Assembly; and special allowances paid to public servants.

Employee Benefits

Services

Includes information services, such as, advertising provided by professional agencies and advertising placed directly with the media; rental and the purchased repair and maintenance of machinery, equipment, buildings, land and engineering structures; data processing services; insurance premiums; and other professional and special services.

Supplies and Equipment

Includes provision for the purchase of all machinery and equipment, both new and used; and the purchase of all materials, supplies and utilities.

Acquisition/Construction of Physical Assets

Includes all costs of acquisition and construction by contract of new and used buildings and engineering structures; and the cost of acquisition of land.

Transfer Payments

Includes grants, subsidies, assistance to persons; the business sector; non-commercial institutions; and other government bodies.

Other Transactions

Includes special transactions, such as Ontario Development Corporation—Interest incentive and Guarantees Honoured; Municipal Taxes on A.R.D.A. owned property; and repayable grants.

Note on Statutory Appropriations and Loans and Investments

Statutory Appropriations and Loans and Investments are not Standard Accounts. Amounts required for Statutory Appropriations and Loans and Investments are shown, where applicable, as separate entries under the Standard Accounts Classification details relating to each Activity.

Note on Cost-Recovery Activities

In cases where the anticipated recovery of costs of an activity is equal to or greater than the expenditures, the balance of the activity is shown at the nominal value of \$1,000. Recoveries in excess of expenditures, where these occur, will be added to general revenue.

Note on Special Warrants

Special Warrants are issued to authorize payments for the purpose of general and necessary government expenditures when the Legislature is not in session. The amounts provided by Special Warrants in the 1990-91 fiscal year were deducted from the total for each program to determine the amount to be voted.

IV. — CABINET OFFICE

SUMMARY

The Cabinet Office is the central agency which supports the Premier, his Cabinet and its committees in their efforts to set the broad direction and priorities of the Government, and in the determination of its legislative program. It co-ordinates the government's policy initiatives and provides support to the Premier and Cabinet on Order-in-Council appointments, Premier's Correspondence, Freedom of Information requests and other administrative issues. The primary clients served by the Office are the Premier, Cabinet and other central agencies and line ministries; however, some functions (such as Orders-in-Council, Freedom of Information and Premier's Correspondence) have direct contact with the public.

The Cabinet Office also advises on administrative/operational matters for the Office of the Premier and for other organizational units not directly attached to ministries, such as the Office of the Government House Leader.

The Premier's Councils report to the Premier and are funded through the Cabinet Office.

TECHNICAL STANDARDS PROGRAM:

This program consists of five operating activities, co-ordinated by the office of the Assistant Deputy Minister, which are responsible for minimizing risk inherent in designated environmental, technical and operating situations. This goal is accomplished through the inspection of elevators, pressure vessels, upholstered and stuffed articles, and of the transmission, transportation, distribution and utilization of natural gas, propane and fuel oil and the issuance of licences for the operation of elevators and pressure vessels.

X. — MINISTRY OF CORRECTIONAL SERVICES

SUMMARY

The Ministry of Correctional Services provides care, supervision, treatment and rehabilitation programs for adult offenders, age 18 and over, convicted by the courts and sentenced to terms of up to two years less one day and all young offenders, ages 16 and 17, regardless of length of sentence. Incarcerated offenders represent only a small portion (13.5 percent) of the ministry's total client group. The remainder, an average in excess of 47,000 on any given day, are supervised in the community by probation and parole officers and by a growing number of community-based service providers for both residential and non-residential programs.

Youth Services are provided through special separate accommodation for 16 and 17 year old young offenders under the ministry's care, as well as specialized community programs and a range of alternative measures programming set out under the Young Offenders Act, to enhance the successful rehabilitation of these young persons.

Treatment and rehabilitation programs range in nature from intensive clinical therapy to supervised work experience programs. Due to the relatively short periods of time most offenders spend in care, programs are geared to achieve maximum practical benefit in a minimum duration. Special emphasis is placed on the treatment needs of substance-addicted offenders.

Academic education, life skills training, literacy and employment readiness are also supported and promoted as important rehabilitative opportunities. As part of its mandate to help protect society from dangerous and unlawful behaviour, the ministry maintains secure detention facilities for those awaiting trial, sentencing or other judicial proceedings, as well as those awaiting transfer to federal facilities.

XIII. — MINISTRY OF EDUCATION

SUMMARY

The mission of the Ministry of Education is to enable Ontarians to develop their moral and intellectual potential through the provision, in both English and French, of high quality opportunities for lifelong learning which are sensitive to and consistent with the values of a pluralistic, democratic society and relevant to the present and future roles of all Ontarians as contributing members of society.

The Ministry establishes the legal and policy framework under which education is delivered in the province. It provides program direction through the issuance of guidelines, develops support materials and evaluates results. The Ministry provides both operating and capital grants to school boards in a manner that supports the principle of equality of educational opportunity for students across the province. Ministry funding provides for direct service delivery through the Provincial Schools for the Blind and Deaf, the Independent Learning Centre, Literacy and Youth Employment Services as well as paying the employers' contribution to the teachers' pensions and supports various special initiatives.

ENVIRONMENTAL CONTROL PROGRAM:

This program provides for the delivery of programs to protect air quality, surface and groundwater quality and quantity, to manage the disposal of wastes, to ensure an adequate quality of drinking water, to regulate the use of pesticides, and to promote the consideration of the environment in the planning and development of undertakings. The program also provides coordination of designated critical issues and the orchestration of inter-governmental activities.

Compensation to victims of spills is provided through the Environmental Compensation Corporation. A Spills Action Centre provides 24-hour access for spill reporting and for coordinating spill investigations.

XVI. — MINISTRY OF FINANCIAL INSTITUTIONS

SUMMARY

The Ministry of Financial Institutions has a two-fold mandate: to maximize the economic contribution of the financial sector to the total economic growth of the Province; and to regulate financial institutions in a manner which maintains their solvency, protects the interests of the public and ensures confidence in the system.

Four operational units pursue the Ministry's mandate through the monitoring and examination of deposit institutions, insurance institutions, securities institutions and private and public pension plans to ensure compliance with statutory obligations. As well, the Ministry administers the Motor Vehicle Accident Claims Fund.

The strategic direction for the Ministry is one of fostering a financial service marketplace which promotes growth, encourages investment from local, national and international sources, and provides clients with a high level of confidence in the integrity and solvency of the financial system.

FINANCIAL STANDARDS PROGRAM:

This program consists of five activities that provide for the regulation, supervision and policy direction of financial institutions operating in Ontario. The focus of the program is to safeguard the interests of the public dealing with the financial service sector while creating a business climate to increase Ontario's domestic and international competitiveness. This is achieved through disclosure to the public of the essential elements of business transactions including the issuing of securities, registration and licensing of persons dealing with the public to ensure a high degree of competence and honesty in their dealings, and examination and surveillance of the financial standing and practices of firms. In addition, this program provides for the administration of the Motor Vehicle Accident Claims Act in respect of adjustment claims and payment of damages occasioned by the operation of stolen, unidentified or uninsured motor vehicles.

XXI. — MINISTRY OF HOUSING

SUMMARY

The Ministry of Housing seeks to ensure that all Ontario residents have access to affordable, secure and safe housing. The Ministry is increasing the supply of low and moderate cost housing through non-profit and market-oriented housing production programs. Through the Ontario Housing Corporation, 56 local housing authorities and 1,600 non-profit housing sponsors, the Ministry provides capital assistance for, and subsidizes the operation of, 205,000 social housing units, including units for residents with special needs. It works with the Ministry of Government Services to optimize the use of public land for housing, and with the Ministry of Municipal Affairs to streamline the planning process in support of the Land Use Planning for Housing Policy Statement, and provides advocacy support for affordable housing. The Ministry of Housing has introduced grant and loan programs that promote the rehabilitation and intensification of the existing housing stock, and the modification of housing to meet the needs of disabled persons. It also administers the Residential Rent Regulation Act, which regulates residential rents, and the Rental Housing Protection Act, which controls rental conversions, demolitions and renovations. The Ministry is responsible for the Ontario Building Code and Plumbing Code, which regulate the construction and renovation of all buildings in the province and, while maintaining high standards of building safety, the Ministry facilitates cost-effective approaches for building construction and renovation.

SUMMARY

The mandate of the Ministry of Industry, Trade and Technology is to help Ontario become a more productive and internationally competitive economy. The Ministry does this by providing leadership in economic policy development, advancing Ontario's interests with Governments abroad, acting as an advocate for business within the Ontario government, promoting co-operation for economic development at all levels of government, and delivering a range of programs which stimulate opportunities for business and trade development. The Ministry's programs provide advice and financial assistance to encourage small business formation, expand domestic and international trade markets for Ontario based companies, attract foreign investors, support small and large scale industrial investments, and support technological research and development and technological transfer to industry through the Technology Fund, and promote and coordinate Ontario's international interests and activities.

XXXIV. — MINISTRY OF REVENUE

TAX REVENUE AND GRANTS PROGRAM:

The tax revenue aspects of this program are directed at maintaining the integrity of Ontario's self-assessing taxation systems which generate revenue flows to the Consolidated Revenue Fund. Compliance is encouraged through taxpayer information services, assistance, and deregulation while abuse and tax evasion are discouraged through audits and investigations. The tax statutes administered in the program are the Corporations Tax Act, the Mining Tax Act, the Income Tax Act, the Employer Health Tax Act, the Gasoline Tax Act, the Tobacco Tax Act, the Fuel Tax Act, the Commercial Concentration Tax Act, the Succession Duty Act, the Land Transfer Tax Act, the Provincial Land Tax Act, the Retail Sales Tax Act, and the Race Tracks Tax Act.

Under the program, income supplements are delivered to senior citizens through the guaranteed income system, and property tax grants and sales tax grants are paid to eligible pensioners. The program also administers the Ontario Home Ownership Savings Plan which is designed to assist middle and lower income earners in saving for a new home. In addition, the development of small business is encouraged through grants to investors under the Small Business Development Corporations Act and an incentive is provided to employees of small and medium sized businesses to purchase newly issued common shares of their employer through grants under the Employee Share Ownership Plan.

The program also delivers information services and other administrative aspects of the Ontario Tax Credit System which generates property tax and sales tax credits to low income tax filers under the age of 65 in order to relate these taxes and costs to the individual's ability to pay and provides political contribution tax credits to qualified tax filers in order to encourage participation in the political process.

PROPERTY ASSESSMENT PROGRAM:

This program determines the valuation of all real property and prepares assessment rolls for purposes of taxation by local governments. Where assessment information has changed from the previous notification, assessment notices are issued to confirm to taxpayers the revised assessment values and the allocation of school support. The program provides an equitable basis of assessment for the distribution of provincial grants and subsidies to municipalities and school boards and the collection of Provincial Land Tax. In municipal election years, the program conducts a municipal enumeration to facilitate the production of preliminary voters' lists and municipal census data.

INTRODUCTION

The 1991-92 Estimates set out details of the operating and capital spending requirements of ministries for the year commencing April 1st, 1991 and constitute the Government's formal request to the Legislature for approval of the expenditures involved. Once approved by the Legislature in the Supply Act, the Estimates become the legal spending authority for each ministry.

The services or Programs which ministries are responsible for delivering are each identified by a unique vote number within the Estimates. Votes in turn are sub-divided into items or activities in order to distinguish between their different functions. This program/activity structure permits the Legislature to be more specific in appropriating funds to particular services. Within each activity, expenditures are shown by standard account, i.e. salaries and wages, employee benefits, transportation and communication, services, transfer payments etc. (see explanatory notes on page vii).

For comparative purposes, Estimates and Actual amounts for prior years are provided on program summary and activity summary pages. These amounts are restated to provide comparability where functional reorganizations and transfers, Supplementary Estimates or accounting changes have occurred. The Estimates also contain summary tables which outline data on expenditures as well as staffing.

A reconciliation statement is shown on each Ministry's program summary page to relate previously published Estimates and Public Accounts actuals to any restated amounts.

Where it is necessary to seek the Legislature's approval for additional expenditures after the tabling of the Main Estimates, Supplementary Estimates may be tabled.

EXPLANATORY NOTES

NOTE: Expenditure is forecast for the fiscal year 1991-92 under eight Standard Accounts at the activity level. The descriptions of the contents of the Standard Accounts given below are intended to serve as brief outlines only and should not be considered all inclusive.

Salaries and Wages

Includes salaries and wages, overtime and other remuneration paid to regular, probationary, unclassified and other staff; temporary help costs; indemnities and allowances paid to Members of the Legislative Assembly; and special allowances paid to public servants.

Employee Benefits

Includes the government's contribution as an employer to the Canada Pension Plan; the Public Service Pension Fund; the Unemployment Insurance Fund; the Workers' Compensation Board; and other employee benefit plans.

Transportation and Communication

Includes travelling expenses of public servants on government business and recipients of government services, such as wards of the Province; relocation expenses of public servants who are transferred or recruited; expenses of moving office furniture and equipment; costs of transportation of goods other than for initial delivery; mailing costs, such as postage and registration; and communication costs, such as telephone, telegram, and data communications.

Services

Includes information services, such as, advertising provided by professional agencies and advertising placed directly with the media; rental and the purchased repair and maintenance of machinery, equipment, buildings, land and engineering structures; data processing services; insurance premiums; and other professional and special services.

Supplies and Equipment

Includes provision for the purchase of all machinery and equipment, both new and used; and the purchase of all materials, supplies and utilities.

Acquisition/Construction of Physical Assets

Includes all costs of acquisition and construction by contract of new and used buildings and engineering structures; and the cost of acquisition of land.

Transfer Payments

Includes grants, subsidies, assistance to persons; the business sector; non-commercial institutions; and other government bodies.

Other Transactions

Includes special transactions, such as Ontario Development Corporation—Interest incentive and Guarantees Honoured; Municipal Taxes on A.R.D.A. owned property; and repayable grants.

Note on Statutory Appropriations and Loans and Investments

Statutory Appropriations and Loans and Investments are not Standard Accounts. Amounts required for Statutory Appropriations and Loans and Investments are shown, where applicable, as separate entries under the Standard Accounts Classification details relating to each Activity.

Note on Cost-Recovery Activities

In cases where the anticipated recovery of costs of an activity is equal to or greater than the expenditures, the balance of the activity is shown at the nominal value of \$1,000. Recoveries in excess of expenditures, where these occur, will be added to general revenue.

Note on Special Warrants

Special Warrants are issued to authorize payments for the purpose of general and necessary government expenditures when the Legislature is not in session. The amounts provided by Special Warrants in the 1991-92 fiscal year were deducted from the total for each program to determine the amount to be voted.

XXXI. — OMBUDSMAN ONTARIO

SUMMARY

The role and responsibilities of the Ombudsman are set out in the *Ombudsman Act*. The Ombudsman may investigate complaints about the Provincial government or one of its more than 500 agencies, boards or commissions and recommend corrective action to be taken in those cases where the Ombudsman decides that there is substance to the complaint. These concerns may be raised by individuals or on the Ombudsman's own motion because of some action that has been taken or neglected by an official, or from some decision or recommendation which is alleged to be unfair, unreasonable, or arbitrary. The Ombudsman is an officer of the Legislature; she is independent and neutral of the political process and of the bureaucracy. The Ombudsman submits an annual report to the Legislature and can issue special reports as appropriate. Every inquiry is responded to and a professional referral system is used and constantly updated and enlarged. To ensure accessibility, nine district offices are located throughout the province and a toll-free number is available. All services are free to the public and information received is kept confidential.
